

SMALL WORLD TOURS

Kennedy Space Center

November 20, 2024

Join us as we travel to the **Kennedy Space Center** in Cape Canaveral and explore the NASA Kennedy Space Center launch headquarters. Located on a wildlife refuge eight times the size of Manhattan, this hub of technology and discovery will fascinate all who visit. *Traditions are the common threads that connect us as humans.* Make a memory . . . Explore our Space History with so much to see and learn. Board the motor coach for a trip exploring the **Kennedy Visitor Complex** with views of the space shuttle launch pads of the world's busiest space launch facility. Stop to explore the acclaimed Apollo/Saturn V Center, where you'll walk beneath a massive Saturn V rocket, relive Neil Armstrong's first steps on the moon and experience the thunderous rumble of a Saturn V moon rocket lift off. We will get the unique chance to tour NASA's launch and landing facilities, experience interactive simulators, and have jaw-dropping encounters with massive rockets. We will also have time to view the IMAX screenings & visit the Astronaut Hall of Fame. This is a special out of this world day!
